REPLY TO RESTRICTION REQUIREMENT

Sir:

In response to the Restriction Requirement, dated 29 September 2004, Applicant elects the invention of Group 4 (claims 1-9, 15), drawn to an immunogen and vaccine composition with traverse.

In addition, Applicants elect SEQ ID NO: 4 for examination. Because the immunogen claims were apparently divided into 20 groups, Applicants believe that SEQ ID NO: 4 is being considered as Group 4.

Applicants believe that the method claims already depend from the composition claims elected for examination and no further amendment of the method claims is required.
